Eco Church: The National Emergency Briefing (NEB) - get Informed about the Climate and Nature Crisis: The big picture of the climate and nature crisis is that humanity is currently on a deeply dangerous trajectory, with growing risks of severe societal and economic disruption. The interconnected threats to food systems, health, national security and global stability are no longer distant concerns, but increasingly part of our lived reality. Yet public understanding of these challenges remains low, and political systems often struggle to respond at the scale and speed required.
